### **DETAILED ACTION**

1. This action is responsive to communication filed 6/1/07.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark D. Elchuk on 8/6/07.

The application has been amended as follows: Cancel claims 19-23.

### ***Terminal Disclaimer***

3. The terminal disclaimer filed on 6/1/07 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of 10/898,514 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Response to Amendment***

4. The terminal disclaimer filed overcomes the double patenting rejection. Thus, examiner withdraws the provisional nonstatutory obvious-type double patenting rejection of the last office action.

***Allowable Subject Matter***

5. Claims 1-18 and 24 (renumbered claims 1-18 and 19, respectively) are allowed.
6. The following is an examiner's statement of reasons for allowance for independent claims 1, 14 and 24. Regarding claims 1 the distinguishing feature is the analyzing the cause of destruction of the assembly via the representation of the portion of the assembly in combination with other features. Regarding claim 14, the distinguishing feature is correlating the physical component to one of plurality of components by matching the property of the physical component to one of the properties of the plurality of components of the database in combination with other features. Regarding claim 24, the distinguishing features is physically rigging models of the first and second components oriented relative to each other in a manner based on a presumed relative orientation that the first and second physical components are believed to have had when the assembly was in the assembled condition in combination with other features. Claims 2-13 and 15-18 depend on claims 1 and 14, respectively. Therefore are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
